

Adaptations to website www.emeritis.com

Wordpress

Development environment:

<http://beta.emeritis.be/wp-admin>

Login: admin

Password: Wadsup_2018_Emeritis

Change 1: Error on Content hub page (customer cases)

URL: <http://www.beta.emeritis.be/contenthub/>

If you click on “More customer cases” on this page, the following page opens:

<http://www.beta.emeritis.be/customer-cases/>

The blog posts that are shown on this page are not correct. Instead of these blog posts, the real customer cases should be shown, as indicated in the wordpress configuration.

Change 2: Home-page

URL: <http://www.beta.emeritis.be/>

On the home page the following changes need to be implemented:

- Make the “Hero image” (at the top of the page) smaller (cut off below the tag line)
- Remove the ‘highlight’ section below the hero image. The “customer cases” section should come here.
- Below the ‘about’ section, a new section comes here with a call-to-action with a link tot he career page and a picture of Emeritis employees. => DESIGN still to be delivered

Change 3: About-page

A new page has to be created: the “about”-page, reached via a new button on the top menu (next to ‘career’ and ‘contact’).

⇒ DESIGN still to be delivered

Change 4: Footer

Below the logo and tagline, a menu section has to be added in the footer. The same menu items as in the top menu (‘about’, ‘career’, ‘contact’).
